

sensiline

UNA SCELTA DI QUALITÀ
PER LA SALUTE
DEI PIEDI SENSIBILI
E DIABETICI

Soft and comfort top
with circumference up to 60 cm
in the extra-large models

Good fit thanks to
the comfortable fabric

True reciprocated
heel

Classic or partially
padded foot

Hand-linked style flat
stitch seam

Sensiline socks are an excellent choice to grant your feet the ideal wellbeing and health conditions for all daily activities, in particular for sensitive feet. Sensiline products have been conceived for diabetes sufferers, who need to wear specific socks every day. For them, it is essential to prevent small wounds by wearing proper shoes and comfortable socks made of high-quality materials.

Sensiline offers a wide range of socks made of cotton, cotton/silver, angora, silk, Amicor (antibacterial fibre) to cater to all requirements and provide a comfortable feeling at the same time.

All the SENSILINE products
have a true reciprocated heel
and a toe with hand-linked
style flat stitch seam

THE COMPANY

For over 50 years, Elly has been more frequently regarded as a protagonist in the market, thanks to the quality and innovation of its products, responding and caring for consumers' needs. Created from the collaboration between phlebologists and Elly technicians, ANTISTRESS products are the ideal solution to all your customers' requests.

THE PRODUCTION

Continual investments in production structures together with a constant updating in new products designing, as well as high-quality standards from the yarn to the finished product, make Elly a leading company worldwide.

The manufacturing of graduated compression products requires a more sophisticated technology which allows achieving a different tension of the yarn in the various points of the leg, from the ankle to the thigh, to obtain a specific level of graduated pressure, certified by the HATRA test.

QUALITY AND CERTIFICATIONS

The ISO 9001 quality management system, based on accurate controls during the different manufacturing steps, ensures the quality of the production and the best assistance to meet the customers' needs. The Oeko-Tex standard 100 certificate guarantees the respect of human-ecological requirements of ANTISTRESS products. All the products are CE marked.

EXHIBITION MATERIAL

The ANTISTRESS lines are accompanied with customized material, displays and window signs for every need, ALWAYS UPDATED.
